

TWO CASTER OPTIONS:
 STANDARD OR LONG STEMMED CASTERS
 STANDARD STEM PART # SSC
 LONG STEM PART # LSC

TILT REHAB SHOWER COMMODES

Traditionally, rehab shower commodes were primarily made of steel or stainless steel, each with its own drawbacks—steel being prone to rust and stainless steel being expensive and heavy. In contrast, Ezee Life™ commodes are carefully crafted from high-quality aluminum, providing rust resistance, a lighter weight than steel, and a more cost-effective option than stainless steel.

These Aluminum Shower/commode chairs facilitate the smooth movement of clients, allowing care providers to handle heavier individuals with ease. The chair incorporates safety features like Anti-Tippers and lockout arms, enhancing the overall safety and stability of its design.

Ezee Life commodes feature the softest seat, backrest, and armrests in the market. This not only ensures client comfort but also offers support for extended periods of sitting. The tactile texture is soothing to the touch, providing a comforting experience while maintaining a soft and comfortable seat.

New locking flip up arms.

Optional 4 Way Seat

Anti tippers on all models

Height adjustable on all models

Removable snap on seat (all models)

<p>Open Front Seat & Insert</p>  <p>Standard on all sizes</p>	<p>Closed Front Seat & Top</p>  <p>Available on 190 & 195 Commodes</p>	<p>4-Way Open Seat</p>  <p>Available on 190</p>
